Techivation Releases the M-De-Esser

Techivation Unveils M-De-Esser: An end to the search for the perfect de-esser plug-in (according to the developer).

Techivation, a leading innovator in audio software development, is proud to announce the launch of its latest cutting-edge product, M-De-Esser. This revolutionary de-esser audio plug-in sets a new standard in audio processing, offering unparalleled precision and unmatched performance for audio professionals and enthusiasts alike.
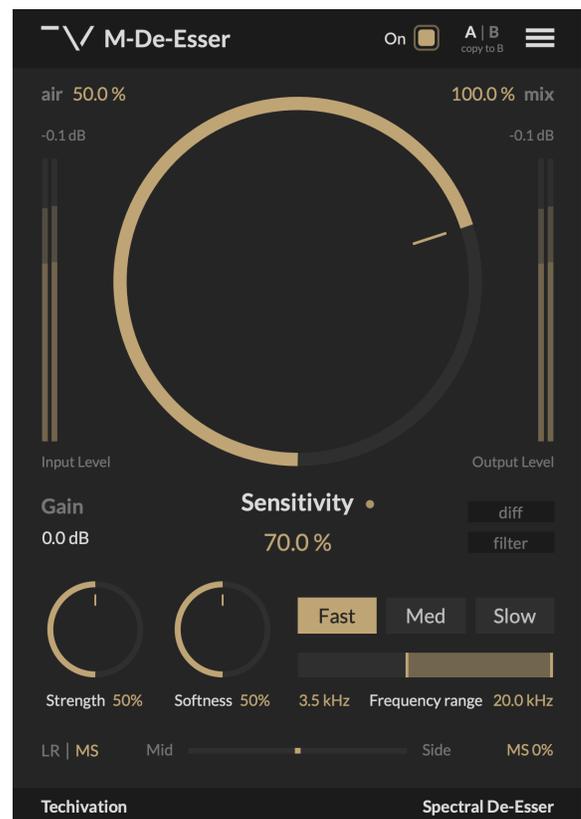

Sibilance and harshness in audio recordings have long been challenges for creators striving for pristine sound quality. With M-De-Esser, Techivation introduces a unique spectral shaping algorithm that elegantly addresses these issues, transforming the audio processing landscape.

"Techivation has always been committed to pushing the boundaries of audio technology, and M-De-Esser is no exception," said Amin Asbaghipour, CEO of Techivation. "Our team of experts has poured their passion and expertise into creating a de-esser that not only removes harsh frequencies but also preserves the essence of the original sound while adding warmth and depth to it, ensuring an extraordinary listening experience."

Techivation's M-De-Esser offers a sleek and contemporary GUI (Graphic User Interface) designed with a modern approach. Its practicality makes it an excellent addition to any music and audio professional's toolkit.

M-De-Esser features:

- Sensitivity
- Strength
- Softness
- Air control
- Frequency Range Slider
- Fast/Med/Slow Modes
- Diff & Filter
